Rant

Yay. Finally released Chapter 1 of Anime Tenchou. I hope everyone enjoys it. It probably should not have taken this long to release it, but I did, and Chapter 2 will hopefully be following shortly. As for the notes on this chapter, in lieu of using Manager-san's Shoujokage all over the place, we decided to stick with Tenchou for the remainder of the manga. We figured it flowed better, and still got the point across. If you have any questions or concerns, please come find us either at the site, www.orenjiverfold.net, or on IRC. #orenji@irc.rizon.net
